House Education Committee Members
Washington State Legislature
Olympia, WA 98504

Dear Members,

I am writing on behalf of the statewide [Childhood Obesity Prevention Coalition](http://www.copcwa.org) where we look for opportunities to make the healthy choices easier for our children and all of our community members. We are in strong support of **HB 1235**.

Today, about 1 in 5 school-aged children is obese. Physical education in schools not only improves educational outcomes, but also teaches lifelong healthy habits that reduce the risk of chronic disease later in life. Sometimes, it can be the only sure opportunity children have for physical activity.

Unfortunately, we are currently unable to form a picture about the current state of physical education opportunities in our schools. Implementing periodic school reporting requirements for Washington state schools will provide that picture of the quantity and quality of physical education in our state, including *curricula, teacher credentials, class size, frequency and space*, and other key variables. Analyzing this new information will better equip all of us to help schools address the barriers and challenges they face in getting our children the physical education they need to stay healthy.

While **HB 1235** is a bill that simply provides a snapshot survey of physical education in our schools, the implications are far-reaching, not just in health but also in our readiness to learn and supporting our next generation of Washingtonians. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads 'Victor Colman'.

Victor Colman, Director
Childhood Obesity Prevention Coalition

Cc. Ethan Moreno, Research Analyst
